### **Albion and Sahara team up at the Belfry**

This year's Sahara Partner Event at the Belfry Golf Resort showcased the latest innovations in AV and was met with a very positive response, especially so to the unique furniture range skilfully designed by Albion to complement the Clevertouch range of screens.

The AV furniture manufacturer has now partnered with Sahara to bring its intelligent designs and quality workmanship to the catalogue range. Now the clever purchasing choice is also the easy choice.

"Albion are delighted Sahara agreed to promote and distribute our new ranges of AV stands and furniture" says Albion Sales Director John Grieves. "We believe these products will enable Sahara and its customers to develop new opportunities across both the public and private sector arenas, in particular where new working practises and aesthetics are becoming more relevant to AV."

Available from Sahara's stock are two unique Albion AV stands, Andromeda and Aquila.

Andromeda is perfect for small class and meeting rooms and will support large format displays up to 65". However when size matters turn to the Aquila. Accommodating up to 84" Clevertouch screens this well designed unit incorporates 4U of full width internal rack space which means your AV and IT equipment can be housed together in this beautiful stand, proving that form and function can be combined in a single, cost effective package. Both Andromeda and Aquila are available in a choice of finishes with base options to suit all applications.

Also new to the Sahara range are the Tacuna meeting room tables from Albion, bringing simplicity in design and perfect function, packaged affordably for corporate and education meeting spaces. Suitable for screens up to 65" (or 2 x 55") the Tacuna tables include full cable management and the Tacuna II model also includes 5U of full rack equipment, allowing all AV and IT equipment to be housed in the same location, not in separate server rooms or credenzas. Both models are available in a wide range of worktop and insert finishes to complement corporate colour schemes.

"Sahara have a history of selling high end office furniture but hasn't done so for many years. The partnership with Albion means that we can now offer a range of very high quality UK designed and manufactured furniture to complement the Clevertouch range. We are very excited to be working with Albion as their exclusive distribution partner" says Shaun Marklew, Sales & Marketing Director at Sahara.

The Albion range is now available to buy from [www.saharapl.com](http://www.saharapl.com)
